

LACE Frequently Asked Questions

- **When does registration open?** March 1
- **What is LACE?** Girls finishing 8th & 9th grade can participate in L.A.C.E. (Leadership and Camping Experience) this year. The unique program focuses on becoming a woman of God through Bible study, service projects, team building, and a more challenging level of traditional camp activities. L.A.C.E. is required for those seeking to become a junior counselor the following year.
- **When is LACE?** LACE is two weeks from July 25 to August 7.
- **What will we do during LACE?** LACE will do the regular camp activities along with adventure activities. The group will spend time learning to problem solve, work together, and be a servant leader. The girls will spend time learning and cultivating a heart after God. Without giving away too many details, this will be 2 weeks of fun, challenges, growth and adventures.
- **Where will we sleep?** You will be sleeping most nights in a cabin or in Werth Hall. However, be prepared for some overnight adventures and camping.
- **How do you register?** You will register from the camp website. Registrations open March 1. We can only have 20 girls in this program. Register as soon as you can.
- **What about masks and social distancing?** We cannot let an outbreak happen at camp. Masks will be worn when indoors and will be worn when in close proximity to each other outdoors. We will follow West Virginia social distancing guidelines. Receiving the COVID vaccine does not eliminate the need to wear a mask. Masks will not be required for campers and staff when they are inside their cabin or anytime they are interacting with their cabin group. Masks will be required if interacting for longer than 15 minutes at less than 6 feet with someone outside of their group. Our programs are structured so that opportunities for this type of interaction are limited in a typical day. Campers are welcome to wear a mask if they choose to do so.
- **Will there be daily COVID health checks? What will they entail?** There will be daily COVID health checks. Your temperature will be taken and you will be screened for the following symptoms: chills, new or worsening cough, sore throat, shortness of breath, severe cold symptoms, new or unusual aching throughout the body, vomiting or diarrhea, new rash, loss of sense of smell or taste. We will not be administering COVID tests on site.
- **Is there a self-quarantine before camp?** Yes. You cannot have had contact with someone who has or is suspected of having COVID in the 14 days prior to arrival.

Additionally, you cannot have symptoms related to COVID prior to arrival. These symptoms include: chills, new or worsening cough, sore throat, shortness of breath, severe cold symptoms, new or unusual aching throughout the body, vomiting or diarrhea, new rash, loss of sense of smell or taste. Receiving the COVID vaccine does not eliminate the need to quarantine.

- **What if someone gets sick?** If someone gets sick or has COVID symptoms, the result is that person must immediately go home, and we may have to shut down the rest of LACE. We don't want this to happen! The self-quarantine before camp is our best fight against stopping COVID from entering camp property.
- **What kind of cleaning protocols will be in place?** There will be extensive cleaning in compliance with the West Virginia Health Department. These include but are not limited to high touch areas being cleaned every two to three hours, bathrooms cleaned and mopped three times a day, surfaces in the Lodge cleaned daily, regular cleaning and disinfecting of the dining hall between meals. Hand sanitizer will be present all over camp along with hand washing stations. Hand washing before meals will be required and shared equipment will be wiped down between uses.
